

Dear

Free online learning module

I am writing to you to highlight an accredited CPD module for GPs and health professionals on Myalgic Encephalomyelitis / Chronic Fatigue Syndrome (ME/CFS). The module is available at:

www.studyprn.com/p/chronic-fatigue-syndrome

A health professional who completes this module should feel more confident to diagnose and manage a patient with ME/CFS, leading to reduced time in the consultation room and better quality of life for patients.

Dr Nina Muirhead developed the module in partnership with the UK CFS/ME Research Collaborative (CMRC), where she chairs the Education Working Group. It is based on clinical case studies which aim to typify patients who may - or may not - be displaying signs and symptoms of ME/CFS. The module reflects emerging biomedical evidence, evolving international discussions and the patient perspective.

The module is free, usually takes under an hour to complete, and provides one CPD point towards revalidation.

A complementary *Learn about M.E.* podcast offers insights of clinicians and people living with ME on the application of the module is available at:

www.buzzsprout.com/1717775/8027624

You may also be interested to view Dr Muirhead's presentation to the 5th Annual Conference of the Collaborative, Sept 2018:
